Welcome to the MedLED Chrome®

The next frontier in the elimination of cords in the O.R.

Finally, the gap is bridged between Xenon power and LED efficiency. The **Chrome** is the first & brightest LED headlight that provides portable power all day long.

The **Chrome** utilizes the flagship *truly cordless* **MedLED®** headstrap design for complete freedom. By choosing among a family of removable light modules, the **Chrome** can be tailored to perform any surgery, even those extremely demanding deep cavity cases where brightness is imperative.

The 4 MedLED® Pillars

1. Be free of the cords with the patented battery-swap technology giving extensive battery life.

2. A patented headband system to hold everything together in perfect balance. So much, that you forget it's there.

med
LED[®] **CHROME**[®]
TRULY CORDLESS™

3. At 275,000 LUX, the **Chrome**[®] MC7 PRO is the brightest surgical LED headlight in the world.

4. Tailor your light. Choose between a soft-top or hard-top headband and load on an MC3, MC6, or MC7 PRO.

MedLED®

A Product Line by Riverpoint Medical
Manufactured in Portland, Oregon USA

TRULY CORDLESS™
Premium Surgical Headlights

MedLED® Story *The headlamp that started a revolution.*

MedLED® was born as the first in surgical LED headlights and remains as the only *truly cordless™* option for any surgical application.

It all started in 2004 when we ‘saw the light’ and launched the **MedLED® Classic** - a bright, soft strap LED headlight followed by the **MedLED Focus®**, **Onyx®** and **Sapphire®**. **And now, the MedLED Chrome®.**
